

Workshop: Landfill and Lagoon Leachate Liabilities: Chemistries and Practical Solutions

April 8, 2016

**Lakeland College
Lloydminster, Alberta**

Workshop topics will include:

- **Waste Characteristics**
- **Leachate Chemistry**
- **Management and Remediation of Leachate Liabilities**
- **Panel Discussion on Landfill Regulations in Alberta and Saskatchewan**

Who should attend?

- **Landfill managers and operators who need to manage leachate and meet regulatory requirements**
- **Chemists who want to broaden their background knowledge**
- **Other professionals that work in the environment and waste management industries**

**For additional information and registration, visit our website
