

AGAT Laboratories **techtalks 2021**

virtual event
march 1 to 12

Grab your favourite hot beverage and come join us for the first-ever morning series of **AGAT Tech Talks** in a virtual format! This year we have focused on providing content that reflects not only the highly specialized work that is done in our country in the fields of environmental science and technology, but also a focus on information that supports us all in our business and personal lives. We have acquired a strong roster of accomplished professionals from across Canada who will present on a suite of topics we hope you each find value and interest in. We'd love for you to follow this special virtual edition of **AGAT Tech Talks** from the comfort of your home, office or any working set-up you happen to have.
